

WASTE CONNECTIONS
Connect with the Future®

Christmas Trees Recycling Program

Waste Connections will be picking up Christmas trees the week of January 15th through January 19th for use in a cooperative effort with the U.S. Fish and Wildlife Service to rebuild the Big Branch Marsh. Please have trees curbside by 5AM Monday January 15th.

Trees must be stripped of all decorations —ornaments, lights, tinsel, etc. and the stands must be removed completely to be eligible for the program. Flocked trees cannot be accepted as they cannot be used for the project.
