## Lease:

1. Is there a current, active lease between the applicant and land owners of the property?

Yes, there is a current lease 99-year lease with the landowner

2. Will the Council be provided a copy t? If there is not an active lease, what lease is being referred to and will the Council be provided a copy of that lease? The lease is a proprietary document between the developer and landowner and not a public record. A copy will not be provided to the Council which would then become a public document

## Land:

3. Please provide a copy of the act of donation in which the land included in the application transferred to the current owners. I realize this is public record and can be obtained from the Clerk of Court, but would appreciate a copy if available either from the City or the applicant. The developer is not a party to the act of donation
