**Subject:** Need for Over 55 Community

I spent this past weekend traveling to visit my disabled twin sister in an over 55 community in Birmingham. 10 hours round trip of driving. If Sucette Harbor had been here 5 years ago, I am certain my mom would have lived her final days there and I would now be 2 miles from my sister and able to see her everyday. I visited multiple communities in the southeast before they decided on Birmingham and there were always waiting lists for the nicest ones. I hope you aren't ever in a position where you NEED a place like this for a family member to spend their final years. But if you are, I hope you would have an option near you like Sucette Harbor could be. Where you could see your family everyday. Where they could enjoy the lakefront with you. Where out of town family members could come and spend the night and visit them, too. Please consider voting for Sucette Harbor in some form.

Thank you,

**Subject:** Sucette Comments

Dear Mrs McGuire:

I am a resident of Old Mandeville and I want to express my complete opposition to the Sucette Development. I agree with many of my fellow residents that this commercial development does not belong at this location in Mandeville, will increase traffic on Monroe street, and generally reduce the liveability of the area.

I would appreciate your voting NO on this project.

Thank you,
