Question/Comment

Sucette Harbor is, we believe, an existential threat to our quality of life in Mandeville. No matter how the developers spin it, this project can only mean a massive traffic nightmare for Monroe St. - our main artery to and from our home on Carondelet St. We will not vote for anyone who supports this development. Time for the council members to stand up for the residents and against interests of big money.

Subject: Sucette Harbor without a HARBOR???

SHAME SHAME SHAME

This is government at its worst!!! A beautiful project that was going to significantly improve life in the area, shot down because of politicians caving into a boisterous MOB of angry, ignorant people who thought they spoke for the majority of those affected by Sucette. They don't!!!

This is the worst possible outcome. The City Council has squandered what would have been a great asset to the community. I am totally disgusted by the entire process. After living on what was the Mariner's Village Marina for 30 years, this was the project that we had been hoping would restore the area to a better version of what it once was. This was our dream development. The marina was the jewel of the project and what most of us in **Mariner's Village** were looking forward to the most. After 18 years of no marina and watching the area decay, this project had so much promise. What a travesty!!!

Thank you City Council for wrecking a project that would have meant so much for the area.
