

CITY OF MANDEVILLE

REQUEST FOR STATEMENTS OF QUALIFICATION

ENGINEERING SERVICES ON AN AS-NEEDED BASIS

FISCAL YEAR 2026

supplemental

Deadline for Submission: Wednesday, March 4, 2026, at 4:00 PM

The City of Mandeville is soliciting Statements of Qualifications (SOQ) from individuals or firms interested and qualified to provide professional engineering services pursuant to the City of Mandeville's capital improvement projects on an as-needed basis.

Firms currently included on the City's pre-qualified list (Attachment A) are not required to submit a new Statement of Qualifications (SOQ) unless they intend to demonstrate expertise in newly added service categories. However, firms that have completed their initial two-year term and two subsequent one-year renewal periods must resubmit to remain eligible. If a firm is uncertain regarding the date of its last submission, it is strongly advised to resubmit an SOQ to ensure continued placement on the list.

Project disciplines for which services are generally required shall include, but are not limited to, the following:

- **Public Works projects** such as roadways construction and repair, drainage, etc.
- **Utilities projects** such as wastewater systems, water distribution systems, lift stations, etc.
- **Facilities projects** such as buildings and building maintenance, recreation maintenance
- **Flood protection projects**
- **Hazard mitigation projects**
- **Electrical system projects** such as lighting systems, backup power & emergency systems, power distribution & infrastructure, instrumentation & controls, technology & special systems, electrical impact studies, etc.
- **Geotechnical engineering and services**
- **Material testing services**
- **Construction engineering and inspection (CE&I)**

Deadline for Submission: Wednesday, March 4, 2026, at 4:00 PM

All services shall be provided on an as-needed basis, and there shall be no guarantee as to the amount of work the individual(s) or firm(s) will be assigned during the term of the agreement.

The City of Mandeville will maintain an "**Approved Engineering Services Consultants List**". The resulting pre-qualified list shall be effective for an initial period of two (2) years, with the City holding the option to renew the list for two (2) additional one-year periods. As capital improvement projects arise, firms will be selected based on the necessary qualifications for the specific project.

PURPOSE

Federal agencies use this form to obtain information from architect-engineer (A-E) firms about their professional qualifications. Federal agencies select firms for A-E contracts on the basis of professional qualifications as required by 40 U.S.C. chapter 11, Selection of Architects Engineers, and Part 36 of the Federal Acquisition Regulation (FAR).

The Selection of Architects and Engineers statute requires the public announcement of requirements for A-E services (with some exceptions provided by other statutes), and the selection of at least three of the most highly qualified firms based on demonstrated competence and professional qualifications according to specific criteria published in the announcement. The Act then requires the negotiation of a contract at a fair and reasonable price starting first with the most highly qualified firm.

The information used to evaluate firms is from this form and other sources, including performance evaluations, any additional data requested by the agency, and interviews with the most highly qualified firms and their references.

GENERAL INSTRUCTIONS

Part I presents the qualifications for a specific contract.

Part II presents the general qualifications of a firm or a specific branch office of a firm. Part II has two uses:

1. An A-E firm may submit Part II to the appropriate central, regional or local office of each Federal agency to be kept on file. A public announcement is not required for certain contracts, and agencies may use Part II as a basis for selecting at least three of the most highly qualified firms for discussions prior to requesting submission of Part I. Firms are encouraged to update Part II on file with agency offices, as appropriate, according to FAR Part 36. If a firm has branch offices, submit a separate Part II for each branch office seeking work.

2. Prepare a separate Part II for each firm that will be part of the team proposed for a specific contract and submitted with Part I. If a firm has branch offices, submit a separate Part II for each branch office that has a key role on the team.

INDIVIDUAL AGENCY INSTRUCTIONS

Individual agencies may supplement these instructions. For example, they may limit the number of projects or number of pages submitted in Part I in response to a public announcement for a particular project. Carefully comply with any agency instructions when preparing and submitting this form. Be as concise as possible and provide only the information requested by the agency.

However, do not double count the revenues received on a particular project.

11. Annual Average Professional Services Revenues of Firm for Last 3 Years. Complete this block for the firm or branch office for which this Part II is prepared. Enter the appropriate revenue index numbers to reflect the professional services revenues received annually (averaged over the last 3 years) by the firm or branch office.
